

Safe Stay
Worry-Free Holiday

THANK YOU

for choosing Color Holiday

Dear Guests,

In order to guarantee you a peaceful and safe stay to the best of our abilities, according to the World Health Organization (WHO) guidelines and the safety protocols of the different branches of the service industry (hotels, beaches, pools, summer camps and physical activities), Color Holiday is implementing appropriate measures and procedures regarding service provision and environment and equipment sanitification.

This booklet's aim is that of providing you with detailed information regarding the safety measures of your stay.

The Color Holiday staff is always at your disposal for any queries.

In order to limit the spread of the virus, regulations call for the implementation of measures to safeguard both employees' and guests' safety and for the display of corresponding safety signs aimed at encouraging responsible behavior.

Color Holiday chose to avoid signs based on requirements and prohibitions and decided instead to thank you for your good behavior and your respect and consideration of other people.

Overview

Color Holiday would like to inform all guests of the regulations issued by the authorities and the measures to be implemented in order to limit the risk of Covid-19 transmission.

In the lobby and in all common spaces social distancing must be practiced (1 meter minimum).

It is mandatory to wear face masks in all indoor public areas. Room keys are sanitized after every stay.

Face masks and surface disinfectant, when applicable, will be at the guests' disposal upon request, possibly for a fee.

In order to facilitate the disposal of guests' personal protective equipment, we invite you to use the designated waste baskets.

Elevators must be used in compliance with social distancing measures. Social distancing can be waived for guests from the same household and guests sharing the same room. In all other cases it is also required to wear face masks. Hand sanitizer will be available to use before pressing any buttons.

All objects (remote controls, gaming controllers, etc.) supplied to guests by the hotel are sanitized before and after every use.

In the event your body temperature rises above 37.5° we kindly ask you to stay in your room and inform the front desk as soon as possible.

PUBLIC RESTROOMS

All objects that are repeatedly touched by guests (such as door handles, buttons, and so on) are sanitized with specialized disinfectant products at regular intervals depending on their level of use.

Each such sanitizing duty will be registered in a designated log.

It is advisable to sanitize your hands before and after using the restroom.

When possible, we suggest you use your room's en-suite.
