WHEN TO USE MALTOSHOT® ENDURANCE

Warnings: food supplements are not intended as substitutes for a varied, balanced diet and healthy lifestyle. Do not exceed the recommended daily dose. Keep out of reach of children under the age of 3. Expiry date applies to the product in its intact container when stored as directed. This product is tested free from Nandrolone and Testosterone with their precursors, free from Beta2-agonists, amphetamines and ephedrine.

INDICATIONS

Energy food supplement designed for people who play endurance sports. It provides a fast and long-lasting energy release.

FEATURES

MaltoShot® Endurance is an energy product for athletes. It provides a gradual energy release thanks to 5 time-release carbohydrates with different absorption speeds, such as long-chain maltodextrins and isomaltulose. This product takes advantage of 3 carbohydrates with rapid energy release and 2 with sustained energy release. As a result of this strategy, MaltoShot® Endurance provides quick energy, but with a long-duration effect. This energy liquid is extremely fluid, it has nothing to do with the old gels you can still find on the market. This feature, makes the product perfectly digestible and very quick to assimilate.

HOW TO USE AND RECOMMENDED DAILY DOSE

2 sachets per day, as needed.

INGREDIENTS CHERRY-LEMON

Water, DE 19 Maltodextrin, Fructose, DE 9 Maltodextrin, Isomaltulose*, Cherry juice concentrate (1,40%), Lemon juice concentrate (0,75%), Sodium chloride, Potassium chloride, Acidifier: citric acid, Flavourings, Magnesium chloride hexahydrate, Preservative: potassium sorbate. *Isomaltulose is a source of glucose and fructose.
