

chemical anchors

Vorpa **Battery tool 18V**

Extrusion tool for chemical anchors

product information

Characteristics of extrusion 18V Battery tool or chemical anchors co-axial up to 420ml

- high thrust power thanks to the higher engine tool
- trigger with speed control
- anti-dripping, continuous and clean work
- easy to carry thank to the apposite case containing extra battery pack and battery charger
- Li-ion battery with low self-discharge rate
- no memory effect, long life, light weight
- LED auxiliary light

products group

Art.9120
Easy Press 380/420

Case including caulking gun and charge Easy Press 380/420

Cartridges to be used with
Easy Press 380/420

Battery tool or chemical anchors co-axial up to 420ml

Performances

- maximum extrusion rate 5.0 mm/s
- extrusion power 700 Kgf
- voltage characteristics: 18V 3.0Ah Li-ion 220V/230V

Weight

- cordless caulking gun: 3,20 kg
- case including caulking gun and charger: 6,00 kg

**Professional use - Battery caulking gun
To be used with 10:1 coaxial cartridges**

product code

Code	Description	Case content	To be used with
9120	Easy Press 18V 380/420ml coaxial type	n° 1 Easy Press 18V n° 2 Battery pack 3.0Ah n° 1 Charger	VSM 400 - VSF 400 - VIN 400 PSF 400 - PE 400
9121	Extra Li-on battery pack 3.0Ah		Durable battery life for 500 charge-discharge cycles
9111	Extra battery charger
