

chemical anchors

# Vorpa Manual caulking gun

Extrusion tool for chemical anchors

product code and information

## Manual caulking gun - Bi-mixer for cartridges 3:1

**Code** **Characteristics**

- 1172**
- extrusion capacity 4 kN
  - weight 1,5Kg
  - to be used with cartridges 385/585ml
  - for 3:1 cartridges

metal

To be used with

VE500 385/585

- 1004**
- extrusion capacity 2,5 kN
  - weight 1,0 Kg
  - to be used with cartridges 345ml
  - for 3:1 cartridges

metal

- 1108**
- extrusion capacity 5 kN
  - weight 1,0 Kg
  - to be used with cartridges 345ml
  - for 3:1 cartridges

nylon

VSF 345

## Manual caulking gun - Bi-mixer for cartridges 1:1

**Code** **Characteristics**

- 1203**
- extrusion capacity 4 kN
  - weight 1,5 Kg
  - to be used with cartridges 400ml
  - for 1:1 cartridges

metal

To be used with

VE100 400  
VE100 600

- 1234**
- extrusion capacity 4 kN
  - weight 2 Kg
  - to be used with cartridges 600ml
  - for 1:1 cartridges

## Manual caulking gun - Coaxial for cartridges 10:1

**Code** **Characteristics**

- 1101**
- extrusion capacity 4,5 kN
  - weight 1,0 Kg
  - to be used with cartridges 380/420ml
  - for 10:1 cartridges

metal

To be used with

VSM/VSF 400  
PSF 400 - PE 400

- 1107**
- extrusion capacity 5 kN
  - weight 1,0 Kg
  - to be used with cartridges 380/420ml
  - for 10:1 cartridges

nylon

- 1009**
- extrusion capacity 2,5 kN
  - weight 0,7 Kg
  - to be used with cartridges 165ml-300ml
  - for 10:1 cartridges

metal

VSM/VSF 300  
PSF 165/300  
PE 300
