

Vorpa **SDS PLUS V4**

Drill bit for hardest materials - professional use

products group

SDS PLUS V4

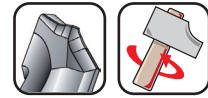

Suitable for

- concrete
- natural stone
- solid brick

Drive

Execution

product code and technical data

Characteristics

- hammer drill bit 4 cutter, professional use
- carbide plate with centring tip
- straight flute entry
- high-temperature brazing at about 1100°C
- particularly suitable for fastenings
- simple precise drilling of pilot holes
- considerably faster drilling progress
- significantly longer life
- high drilling speed
- fast transport of drilling dust
- high grade of stiffness and long service life
- high resistance against breakage
