SAN LORENZO WITH THE DRUMMERS OF TORREPADULI!

Salento, in addition to sun, sea and wind is music and rhythm, that of the taranta, which makes everyone dance without ever stopping. One of the first and most important popular music groups in Salento, **the drummers of Torrepaduli**, will animate the **night of San Lorenzo** for our guests. We wait you **at the pool, from 21:45**, under the starry sky and with the overwhelming music of the drummers!

TODAY, IN HISTORY

It's been 499 years since the Portuguese navigator Ferdinando Magellano sailed from Seville with 5 ships, serving the Spanish crown, to circumnavigate the earth. It was the 10th of August 1519.

THE “DOXI” HISTORICAL LABEL

The most long-lived label of Cantina Coppola. It was one of the first wines to be bottled already in the 60s under the name of Doxi Vecchio. It takes its name from the noble family of the same name. The Doxis lived in a prestigious Baroque palace of 1700 in the historic centre of Gallipoli. Doxi Alezio DOC Rosso Riserva with 80% Negroamaro blend and 20% Black Malvasia, is cultivated in the Santo Stefano vineyard, with a spurred cordon back breeding system. The wine is aged in large oak barrels where it is aged for about two years. Ruby red color.

RECIPE OF TODAY

Green beans with tomato sauce

(da velocissimo.it)

Ingredients: 500 gr of green beans, 250 gr of tomatoes, basil, salt, garlic, ricotta cheese, extra virgin olive oil Cantina Coppola

Clean the beans and give them a half boiled. Meanwhile prepare the sauce, possibly using fresh tomatoes or peeled tomatoes. Then drain the green beans and let them finish cooking in the sauce. We can dress them with a nice sprinkling of cacioricotta and fresh basil leaves. If we like, we can also mix homemade pasta and season with beans and sauce.

LECCE AND ITS AMPHITHEATER

The importance of Lecce for the whole Salento has already been mentioned. The capital of Salento was also important in other historical periods, first of all the Roman one. To testify this there are two monuments characteristic of those years. We are talking about the amphitheatre and the theatre, both located in the historic centre. The amphitheatre, which is located in the central Piazza Sant'Oronzo, is the symbol of the opulence of *Lupiae*, the name under which it was called Lecce at the time. What we see, however, is only a third of the original structure, discovered and brought to light during work on the construction of the headquarters of the Bank of Italy in the early twentieth century. Now an integral part of the square, it is perfectly combined with palaces and churches that overlook it, represented by different historical periods with different architectural styles. A mix of art and history, a "square of the times" in the heart of Lecce.
