CORALS, JELLIFISH GUARDIANS

The news of these days is the increase in the number of jellyfish present along the Adriatic coast of Salento, with many cases of bathers pinched and races at the pharmacy. However, there is a novelty. Some Italian researchers have discovered that a species of coral, off Pantelleria, "goes hunting" for jellyfish. The coral in question, called the orange madrepora, attracts the jellyfish and once it is caught and before defrosting it strikes it with a poisoned dart. The particular aspect of these corals is that they collaborate with each other for hunting, one of the few cases for these types of species. As always, nature thinks about it!

TODAY, IN HISTORY

On August 7, 1566, 452 years ago, there were strange appearances in the sky of Basel, with flying saucers. The "Basel phenomenon" was considered as one of the first events with the appearance of UFOs, although it is not scientifically proven.

**ICE-COVERED
TAFURI PASSITO
IS A DISCOVERY!**

The serving temperature of a wine is often enclosed in preconceived patterns that want the colder whites and the reds at room temperature. The passito Tafuri Igt Salento is a blend of Negroamaro and Primitivo grapes that will surprise you. A purplish aubergine color, concentrated and bright. Scents of red fruits, blackberries, cherries, and blackberries, for a great olfactory complexity and a vigorous palate, of a sumptuous sweetness. On hot summer evenings, taste it frozen to accompany small sins of the throat.

RECIPE OF TODAY

Swordfish cutlets

(da velocissimo.it)

**Ingredients: 4 slices of swordfish, 3 eggs, 50gr of flour,
1 lemon, parsley, salt, pepper,
Extra virgin olive oil Cantina Coppola**

Wash the fish and put it to marinate in a bowl with oil, salt, pepper and a dash of lemon. Leave so for a couple of hours so that it tastes good. Then drain, dry and flour before putting in the beaten egg and frying oil. The slices of swordfish are served hot, with a few drops of lemon.

TORRE SANT'ANDREA THE "FARAGLIONI" OF SALENTO

Salento is not lacking in anything, from artistic beauty to cultural peculiarities, passing through breathtaking landscapes. One of these is located in Torre Sant'Andrea, a small seaside resort that is populated mainly in summer, not far from Torre dell'Orso. For several years the sea here has earned the blue flag, and it is no coincidence! The clear waters are an invitation to dive although the presence of a cliff not so comfortable could make it difficult. Characteristic are the "faraglioni", high rocks overlooking the sea, towers built by nature with the passage of time. In between, however, there are coves with easy entry into the sea, taken every year literally assaulted by tourists and locals. No discomfort can stop a bath in such crystal clear waters.
