THE SMOMBIES

A whole new phenomenon for an object that has revolutionized our lives, for many positively for others, on the contrary, negatively. Last week we wrote about the counter that the major manufacturers of smartphones and operating systems intend to include in the next updates, to know how much time we spend in front of the screens. The novelty of today comes from China, precisely from the city of Xian, located almost in the center of the country, where a pedestrian lane has been built for the "smombies", the new digital zombies, those who are literally dependent on the smartphone and can not help but use it. This

lane has been designed to allow safe traffic that does not look at the road, although, despite the curious initiative harbinger of contrasting comments, not to pay attention is still a practice unsafe.

TODAY, IN HISTORY

On June 11, 2002, the United States Congress acknowledged the authorship of the invention of the telephone to Antonio Meucci, thus annulling Graham Bell's patent which conducted experiments using Meucci's material.

Doxi Alezio DOC Rosso Riserva with 80% Negroamaro blend and 20% Black Malvasia, is cultivated in the Santo Stefano vineyard, with a spurred cordon back breeding system. RECIPE OF TODAY

Aubergines gratin (da ricettedellanonna.net)

Ingredients: long aubergines, cherry tomatoes, olive oil, pepper salt, 50gr of breadcrumbs, 50gr of grated Parmesan cheese.

Wash the aubergines and cut them into washers. Put them in a container and mix well with oil, salt and pepper. Cover a baking tray with baking paper and put the slices of eggplant on top. Now prepare the mixture to put on top of the eggplants. Chop the parsley and finely chop the cherry tomatoes. Peel and crush the garlic. Mix together: the parsley, the tomatoes, the garlic, the grated cheese, the breadcrumbs and the remaining oil. Remove the garlic and sprinkle with the mixture obtained with the washers of eggplant. Salted and peppered. Switch on the oven at 200 °C. When the temperature is reached, put the baking tray in the oven and cook for 20 minutes. Aubergine gratin can be eaten freshly baked or even cold.

S. FRANCIS OF PAOLA

The church, the confraternity, the worship

With the feast of St. Francis of Paola, Gallipoli rediscovers its roots as a seaside town. This Saint, patron saint of seafarers, has a special place in the cult of Gallipoli. For the event, in fact, the port of Gallipoli always hosts a ship of the Navy, to honor the figure of the Saint.

The church named after it, situated on the C. Colombo Riviera, is the seat of the confraternity of the same name, founded in 1647 under the title of Santa Maria ad Ferrai. In the next editions, more information about this church and its history.
