TODAY...IN HISTORY

Horoscope, what the stars say

Today's sign for Paolo Fox is the **VIRGIN**. The weekend will be perfect for the meeting for you, after a week under stress that has a positive value, as you charge to never stop!

430 years, in 1588, the first stone of the famous Rialto bridge, one of the most photographed, was laid in Venice. The bridge, projected by the architect Antonio da Ponte, was built to replace the old wooden bridge, which had collapsed several years earlier.

**NEGROAMARO
WHITE, TASTE
AND ELEGANCE**

The Rocci di Cantina Coppola, the first white Negroamaro ever, was born in 2006 from the intuition of Carlo Antonio Coppola and the oenologist Giuseppe Pizzolante Leuzzi, convinced that the peculiar organoleptic characteristics of Negroamaro could also give the white wine a structure of great impact. The first vintages were bottled as Table Wine, because no DOC and IGT contemplated the vinification of Negroamaro in white. Subsequently, the name of Igt Puglia was obtained. Today among our most appreciated wine.

RECIPE FOR TODAY

Three milks cake (da ricettedellanonna.net)

Ingredients for the base: 5 eggs, 180gr flour, 170gr sugar, 100gr butter ambient temperature, 1 teaspoon of baking powder, 1/2 teaspoon salt; For filling: 150gr of internal milk, 150gr of fresh cream, 150gr of condensed milk; For decoration: 500gr fresh cream, 80gr icing sugar, sweetened chlorinated tails

Beat the butter with the sugar until you get a soft and fluffy cream. Add the eggs one at a time and then the sieved flour together with the yeast and salt. Amalgamate well. Grease and flour a pan 24 cm in diameter. Pour into the mixture and bake in a static hot oven at 180 °C for 50 minutes. Always try the toothpick before churning out the cake. Mix the cream, milk and condensed milk together, stirring well. Dry and perforate the entire surface of the cake with a toothpick. Pour over the sweet the mixture with the 3 milk making it absorb well. Put in the fridge and let rest for at least 4 hours. Once the time has passed, resume the cake and unshake it. Whip the cream well with the icing sugar and use it to decorate the cake, first distributing a thin layer over the entire surface and then inserting the remaining one in a few bays and forming small bows.

THE SEICENTESCO BRIDGE, THE BOND BETWEEN OLD AND NEW

Tourists in Gallipoli will have noticed the first peculiarity of this city: the old town is a thing apart, unlike most municipalities, where the ancient part is also the geographical heart of the city. The geographical specification is not by chance! Even if detached from the new village, the old town is still the reference point for everyone! The other peculiarity is that the old town, as well as being detached is also an island, linked to the mainland by a bridge, always called “seicentesco”, with reference to its period of construction, renamed a few years and named after Pope John Paul II. However, a few centuries was not as we see it today. Made between 1603 and 1607, set with twelve arches and a final drawbridge. Urban planning and traffic requirements have transformed it to allow for the widening of the carriageway.
