OVERSHOOT DAY, WHAT IS IT?

Tomorrow will be the overshoot day, but what about trafficking? Let's make a premise: the earth guarantees man every year the resources necessary for his survival, from food to timber, passing through the air we breathe. Over time, however, the amount of these resources made available always ends earlier, a sign that we consume more than we could and that we over-exploit the land. According to the data, in fact, our lifestyle causes suffering for the planet, consuming so much that, for example, to meet the needs of the wealthy part of the planet would take many more than planets. This is therefore the earth overshoot day, the day when the earth continues to warn us that we should be more careful in the use of its resources, which are given and cannot be increased or changed.

**ICE-COVERED
TAFURI PASSITO
IS A DISCOVERY!**

The serving temperature of a wine is often enclosed in preconceived patterns that want the colder whites and the reds at room temperature. The passito Tafuri Igt Salento is a blend of Negroamaro and Primitivo grapes that will surprise you. A purplish aubergine color, concentrated and bright. Scents of red fruits, blackberries, cherries, and blackberries, for a great olfactory complexity and a vigorous palate, of a sumptuous sweetness. On hot summer evenings, taste it frozen to accompany small sins of the throat.

THE CHURCH OF CRUCIFIX OF GALLIPOLI

Along the walls of the historic center of Gallipoli, tourists come across many churches, all overlooking the sea. Some of that have a very decorated facades, others simpler. External simplicity, however, does not imply the same internal simplicity; on the contrary! The church of the Crucifix, for example, is precisely the symbol of this dualism. Inside, in fact, there are plenty of decorations and canvases to adorn the structure. A particular characteristic is certainly the considerable presence of carved wood, to indicate what are the places of the confraterals of the confraternity that has been based in this church since 1642, linked to the guild of the coopers, a trade once widespread in Gallipoli, thanks to the flourishing port activity. The importance of this oratory is also linked to the important Easter rites that are organized here, which we will talk about.
