NAUTILUS

Hotel

The Nautilus Family Hotel is a design hotel with 96 rooms including 6 equipped to accommodate people with disabilities, garage for a fee (41 parking spaces), restaurant, baby bottle, bar, swimming pool, children's playground with miniclub and entertainment. 2 buildings of 6 floors, 4 lifts (3 for disabled). The wood, used for the Hotel Nautilus (788 cubic meters) was worked in laminated panels, assembled using only water-based glues. The result is a solid but flexible building and a load-bearing structure able to withstand fire longer and better than traditional reinforced concrete. Particularly advantageous energy saving values are added to the seismic strength, especially for a hotel that must maintain ideal air conditioning conditions throughout the year. The natural insulating power of wood, in this case, minimizes the use of air conditioning in summer and heating in winter, maintaining optimal humidity values in every area of the building and reducing consumption in favor of a reduction of environmental pollution. The Nautilus Family Hotel is also a Bike Hotel: equipped to accommodate cyclists, has a corner used for washing bikes, mechanics, guarded storage and express laundry.

Rooms

96 rooms: 47 Executive, 6 Executive view hill, 38 Executive sea view, 20 Executive sea front. 18 Family Rooms seafront, 6 Family Deluxe Rooms seafront and 5 Family Junior Suites seafront.

Rooms Facilities

Double or twin beds, bunk bed (3rd and 4th child/adult bed), flat screen TV, minibar, safe, bathroom with shower, hairdryer, magnifying mirror, air conditioning and heating (with independent controls). 50-inch TVs with full subscription to pay TV networks Sky and Dazn.
